SUMMARY

Experienced full-stack web developer with over 3 years of proficiency in Golang and PHP Laravel. Skilled in the end-to-end development process, including design, construction, and optimization of web applications and REST APIs. Passionate about leveraging expertise to make meaningful contributions to impactful web development projects.

EXPERIENCE

Senior Software Engineer

Qburst Technologies Pvt Ltd

2022 - Present

- Develop and maintain scalable, high-performance back-end systems using Golang and PHP.
- Collaborate with other teams, design APIs, and optimise performance.
- Upskilled with new technologies to meet project requirements.
- Developed and maintained internal documentation to ensure smooth operations.
- Conducted code reviews and wrote unit test cases to ensure the quality and security of the code.

Full-stack Web Developer

Zignuts Technolab Pvt Ltd

2020 - 2022

- Worked on the Laravel and VueJS frameworks.
- Developed a user-friendly web presence by converting mock-ups into usable web pages with HTML, CSS, Ajax, jQuery, etc.
- Develop database design and project plans to achieve the expected output.
- Worked with graphic designers and converted designs to responsive web layouts using Bootstrap and CSS3.
- Utilized Laravel cron jobs to execute prescheduled tasks.
- Created and maintained 4+ web applications.

EDUCATION

MASTERS OF COMPUTER APPLICATION (MCA)

Marwadi College (GTU)

2019 - 2021

BACHELOR OF COMPUTER APPLICATION (BCA)

R. P. Bhalodiya College (SU)

2016 - 2019

PROJECTS

Account Platform: Microservice

The account platform is a microservice within an e-commerce system that offers features related to user account registration, login, profile management, and generates different activity analysis reports.

Technology Used: Go, PHP, Scala, Docker, Swagger, PostgreSQL, MySQL, AWS ECS, AWS EC2, AWS S3

- Implement REST API and batch script service to generate and upload analysis reports to Amazon S3 using the go-cobra package.
- Collaborated with the DevOps team to containerize the application and improve deployment processes.
- Integrated security best practices by creating git hooks to align commit messages and run unit tests before committing code.
- Managed database schemas and optimized queries for efficient data retrieval and storage in the database.

Rewards And Recognition

This application aims to recognise talent and motivate top performers to become flag bearers, which will be decided based on survey.

Technology Used: Go, PHP, Docker, Swagger, PostgreSQL, ReactJs

- Designed and developed database and code structure to achieve expected results.
- Integrate social authentication and allow users to sign in via Google.
- Acquired skills in Go, Docker, and other technology tools to meet project requirements.
- Integrated other internal microservices to generate certificates and send mail notifications.

PROJECTS

Property Renter App - Smoove

The project aims to develop a native iOS and Android mobile application that allows property owners to list their property to rent and renters can contact the owner and find flatmates.

Technology used: Laravel-PHP, AWS S3, MySQL, VueJs

- Implement a REST API for the transfer of data across platforms.
 - Develop FCM-based one-to-one and group chat features.
 - Used postman documentation to maintain API endpoint documentation.
-

Mobile Game App - GreenJello

This game app allows users to play different types of decks and guess the words contained within them.

Technology Used: Laravel-PHP, AWS S3, VueJs, MySQL

- Develop an admin panel and REST API for managing game data with different CRUD operations.
- Prior to uploading media to AWS S3, implement an image compression algorithm.
- Managed user transactions made through GPay and Apple Pay during deck purchases.

SKILLS

Javascript	jQuery	CSS3	Bootstrap	Bootstrap	ReactJs	SQL	PHP	Laravel	Golang	Jira
Docker	Postman	Git	AWS Services	CI/CD - Jenkins						
Task and Time management			Team Player	Quick Learner	Problem solving					

CERTIFICATION

Introduction to Cloud Computing on AWS for Beginners - Udemy
